Mission statements

The Mission of CEA is to continuously research economic development and public policy in the Republic of Macedonia and to offer recommendations, suggestions and measures to the government and non-governmental institutions.

CEA members share a common vision of the Republic of Macedonia as a new emerging economy integrated with regional and world markets. They devote their time, efforts and knowledge to help make this vision become a reality.

Goals of CEA:

- ✓ To provide quality policy analyses;
- ✓ To support viable economic policy in Macedonia;
- ✓ To help foster an environment that brings about higher investment, accelerated development and growth of the Macedonian economy, and EU accession;
- ✓ To achieve financial sustainability;
- ✓ To encourage regional cooperation and collaboration in the Balkans;
- ✓ To strengthen civil society, social capital and trust.

Product description

Quarterly economic outlook is tailored to the needs of corporate sector. This product is providing up-to-date macroeconomic and industry-specific analysis as well as statistical data considered as valuable information for the Macedonian corporate sector. It is made by macroeconomic section, industry-specific section and regional outlook, altogether compressed in a colorful six-page report.

The macroeconomic section is offering a brief summary table of the main macroeconomic indicators that are considered to be important ingredients for the firms' business plans. Not only actual data, but also most recent forecasts will be provided. The latter can either be drawn from official sources (Government, IMF, EU Commission, OECD), derived from the CEA macro model or some combination.

This product is providing:

- Monthly and/or quarterly data on industry-specific exports and imports;
- Selected stock exchange data;
- Updated information on world prices of precious metals and energy prices;
- Historical annual data on different theme in each issue.

The regional outlook component of the report is providing the main economic indicators for the South Eastern European countries and highlights of economic news with references for further reading.

"We would like to express our support to the Center for Economic Analyses (CEA)

[edonia/index.htm](http://cea.org.mk/edonia/index.htm)

The people we met are young professionals from a transition country that in our opinion have the capabilities to improve the quality of the macroeconomic indicators in Macedonia. In this regard, we would like to express my appreciation for CEA work on the recent debate surrounding the reported decline in industrial production. I look forward to seeing the future output of CEA"
